About the Artist: Seth Weiss

Although he has exhibited at The Mystic Museum of Art, and The BKS Design Gallery in Guilford, Seth says, "I'm not really an artist, I just like to make things." Well, not only are his up-cycled whimsical creations extremely well crafted, but they are useful and made

with a purpose in mind—foot stools, coffee tables, and lamps—and a few small sculptures thrown in just for fun. Seth taught industrial arts at Cheshire High School, and then ran a construction company in New Haven specializing in restoration and preservation of historic buildings.
