

Greetings,

What a beautiful Spring day to send an update on our renovation project! It has been another busy week with great progress made; let's take a look.

Exterior Dining and Entrance Site Work

The carport is fully demolished and starting Monday 4/24/2023 we will open the front entrance again, temporarily. We'll need to close it at some point for sidewalk work, but for now, we can welcome foot traffic through our main entrance.

We'll work to get a bench outside the door so that residents can enjoy some sun and we also want to mention that the courtyard has been fully furnished with tables, chairs and umbrellas for resident use.

Our next steps will focus on getting ready for our new light filled solarium.

Dining Space/Display Kitchen

Framing spaces in the new dining room shows how well it is coming along. When you take a look at these pictures, you can start to see how open things will be in the kitchen.

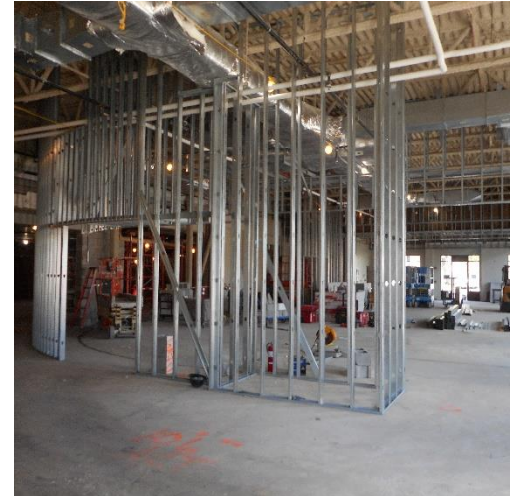

What you are looking at here will be the back of house Dairy kitchen that will lead out into the Dairy portion of the display kitchen.

CONSTRUCTION UPDATES

Inside the dining room we wanted to share this picture; the angle of this shot is from the lounge and the curved wall will help to separate the sections of the dining room and reduce noise during the dining experience. Picture this with a roaring fire and a comfy chair, while sipping a warm cup of coffee or tea!

Upcoming Work

We will welcome some specialists in the coming week who will help construct special elements of our new ground floor, such as cabinetry and our fireplace.

This is truly an exciting time! We are also delighted that several residents have shared that it has not been nearly as noisy as they thought! We are pleased that this project is going so well.

Jesse Wescott
